NEW ENHANCED PRODUCT NOTIFICATION

ASJ has developed an enhanced product of the standard resistor commodity.

This enhanced product, is capable of achieving Temperature Coefficient of Resistance (T.C.R) of $\pm 100\text{ppm}$ in the low resistance range (1Ω to 9.99Ω), and is available for all sizes from 0402 (1005) to 2512 (6432).

The enhanced product will be a preferred choice over standard commodity (with T.C.R of $\pm 200\text{ppm}$ at low resistance range) due to its improved stability.

For more ordering information, please refer to ordering code as shown:
